

Special Risks to Consider About *This Franchise*

Certain states require that the following risk(s) be highlighted:

1. **Out-of-State Dispute Resolution.** The franchise agreement requires you to resolve disputes with the franchisor by litigation only in Alabama. Out-of-state litigation may force you to accept a less favorable settlement for disputes. It may also cost more to litigate with the franchisor in Alabama than in your own state.
2. **Turnover Rate.** During the last 3 years, a large number of franchised outlets (376) were terminated, not renewed or ceased operations for other reasons. This franchise could be a higher risk investment than a franchise in a system with a lower turnover rate.
3. **Unopened Franchises.** The franchisor has signed a significant number of franchise agreements with franchisees who have not yet opened their outlets. If other franchisees are experiencing delays in opening their outlets, you also may experience delays in opening your own outlet.
4. **Mandatory Minimum Payments. You must make minimum advertising fund payments, regardless of your sales levels. Your inability to make the payments may result in termination of your franchise and loss of your investment**

Certain states may require other risks to be highlighted. Check the “State Specific Addenda” (if any) to see whether your state requires other risks to be highlighted.

⁸ You currently must purchase required ingredients to prepare the Chester's menu, including but not limited to breadings, fresh poultry, dipping sauces, frozen side items and paper products, from our approved third-party suppliers and distributors. We license certain suppliers to prepare these ingredients using our proprietary formulas. The suppliers then sell the Proprietary Goods to our designated distributors, and you must purchase the Proprietary Goods from one or more of our designated distributors. However, we reserve the right to change these requirements from time to time.

⁹ This estimates the funds needed to cover your initial expenses for the first 3 months of operation (other than the items identified separately in the table). It includes payroll costs but not any draw or salary for you. We have relied on our principals' many collective years of experience in the food-service equipment and supply industry, and outside consultants, to compile this Additional Funds estimate. ~~You should review all figures in this Item 7 carefully with a business advisor before you decide to acquire the franchise.~~ Except as provided in Item 10 below, neither we nor our affiliates offer financing directly or indirectly for any part of the initial investment. The availability and terms of third-party financing depend on the availability of financing generally, your creditworthiness and collateral, and lending policies of financial institutions. The estimate does not include any finance charge, interest, or debt-service obligation.
